## About This Game

Murchison 2 is a merging of the original Narrow Gauge Murchison logging layout with an extensive Standard Gauge rail network.

By incorporating landscape based on actual New Zealand electronic map data with specially developed Nature Series sets (animated waterfalls, river splines, textures, cliff splines, rail ledge splines, rock splines), Murchison 2 takes Trainz to a new level of realism. The result is a photo-realistic colonial layout, set in the steam/diesel transition era, that users can submerge themselves in for a complete interactive rail experience.

Whether a steam-era NG enthusiast, or solely interested in SG steam or diesel operation, the 440 board Murchison 2 layout contains a huge variety of interactive and inter-related industries for operational pleasure that will keep the train enthusiast immersed for 100's of hours of interactive operation.

### Key features:

The Murchison 2 pack includes the full NATURE SERIES pack of TRAINZ add-ons. These are used extensively in the Murchison layout and are also available for use in your own layout building (to add that extra level of photo realism).

- Waterfalls - 40 different animated waterfalls with built-in sound
- River splines - 188 river splines from pre-built full rivers splines to river sides for assembling you own unique rivers

- 
- Textures - 200 textures from the Lord of the Rings country
  - Cliff splines - 390 3D textured cliff splines from arid country to mountain cliffs including rail cuttings
  - Rail Ledge Splines - 408 3D textured rail ledges for creating those unique river gorge and hill country rail effects
  - Rock splines - 80 3D rock splines.

### **Layout Specs:**

- 2 years and 3500 hrs in the building
- 440 boards of spectacular 3D terrain incorporating the NATURE SERIES 1 & 2 sets
- Extensive SG and NG inter-related and interactive industries
- Set in rural pioneer country
- Country towns and rail yards
- Steep hills and spectacular high-county, ravines, gully's and Fiords
- Fully signaled with Coloured Light Main line signals and Semaphore Branch line signals
- Breath-taking realism
- Continually changing landscape and terrain
- Comes with 28 sessions for quick familiarization
- Operational rail ferries - load and move rail ferries between ports
- Operational River Steamer - navigate the interactive river lock
- Operational aerial flight - explore aboard the helicopter
- 100's of hrs of operational pleasure

### **Trackwork:**

- 190 km (120 miles) of scenic SG mainline and branch lines
- 55 km (34 miles) of NG logging and mining lines
- 175 km (110 miles) of aerial helicopter route
- 100 km (63 miles) of Ocean / River ship routes

trainz simulator murchison 2 free download. trainz murchison 2 download. trainz simulator murchison 2. trainz murchison 2

When I "play" the game, it loads up what looks like a Wiki page describing the updates to the game. Does not open in 1920x1080. This is an older game not designed for current computers. Waste of my 1 minute figuring things out.

1/10. Absolutely Great, and everything I used worked just as it should. Even sounds and actions were co-ordinated, more than I can say for Rail Simulator 2013! Pity about lack of instructions though, but that is common in all these simulator games. Lucky I have crystal balls.. The old and still playable train simulator. If you are looking for cheap train simulator, buy that! You will be happy.

It doesn't look like the Train Simulator 2015, but it's still classic and playable game! Just check it, if you dont believe me.. not all the sessions included are playable :( DO NOT BUY. Another Simulator involving trains! Like trains? Get this, don't like them, walk away.... i changed my mind i love this game its awesome and fun. recently purchased this game, it could and should be good, plenty of interesting content but it wont save part way through an session , also only 25 of the 58 sessions are accessible

currently trying to get some sense out of the publishers support team .

---

Heyyo,

Meh, got this game on one of those indie bundles... it's not very fun, nor does it look very good... maybe I'm just not into hardcore train simulators... but yeh, I can't give it a good recommendation. :P. i changed my mind i love this game its awesome and fun. bgnhnb vfvhg. people this is only an add-on. If you want a proper train simulator get train sim 2015 half a star out of 5.. its total waste of time and money playing this. i tried to kill people and crash trains for almost an hour before giving up
